## Elie Levine, MD Plastic Surgeon

Dr. Levine believes in an honest and direct approach, combining his artistic eye and steady hand to help each patient achieve his or her cosmetic goals. In the past some words patients have used to describe his work are "gifted", "innovative", and "sensitive". Patients from around the world make appointments with Dr. Levine for his transformational results.

"The goal of plastic surgery should be to fix what might be wrong, return to a more youthful state, and boost one's confidence. It should never look like you have had plastic surgery," says Dr. Elie Levine.

## Jody Levine, MD Dermatologist

On top of being a dermatologist, Dr. Levine is also a dermatologic surgeon, and treats both kids and adults for medical and surgical dermatology, as well as adult cosmetic dermatology and laser surgery. She is known throughout the NY Metro area for her efficient diagnostic sense, comprehensive medical expertise, combined with an artistic eye, skilled hands, and wonderful bedside manner. This unique skill helps all of her patients achieve their desired, natural-looking results.
